FOSTER A DOG AND SAVE A LIFE

Staffy Rescue is a rescue group saving Staffordshire bull terriers and large breed dogs from pounds across NSW. We are looking for foster carers to take dogs into their home and care for them until a permanent home is found. Every dog fostered is another life saved.

Do you have:-

- A genuine love of dogs and a genuine desire to help rescue dogs and make a difference to their lives?
- Confidence and experience with handling dogs?

And are you able to:-

- Provide a loving and safe home environment?
- Make a commitment to foster the dog in your home until a permanent home is found for the dog – no matter how long this takes?

Not all of the dogs at our shelter are available for fostering, and puppies are generally only fostered with members of Staffy Rescue. It is important that the right dog is placed in the right home, so all potential foster carers must complete a questionnaire.

If you are interested in finding out more about what's involved in fostering please email volunteers@staffyrescue.org.au or phone **Lin** on **0450 009 117**.
